

# Vilnius region waste management system

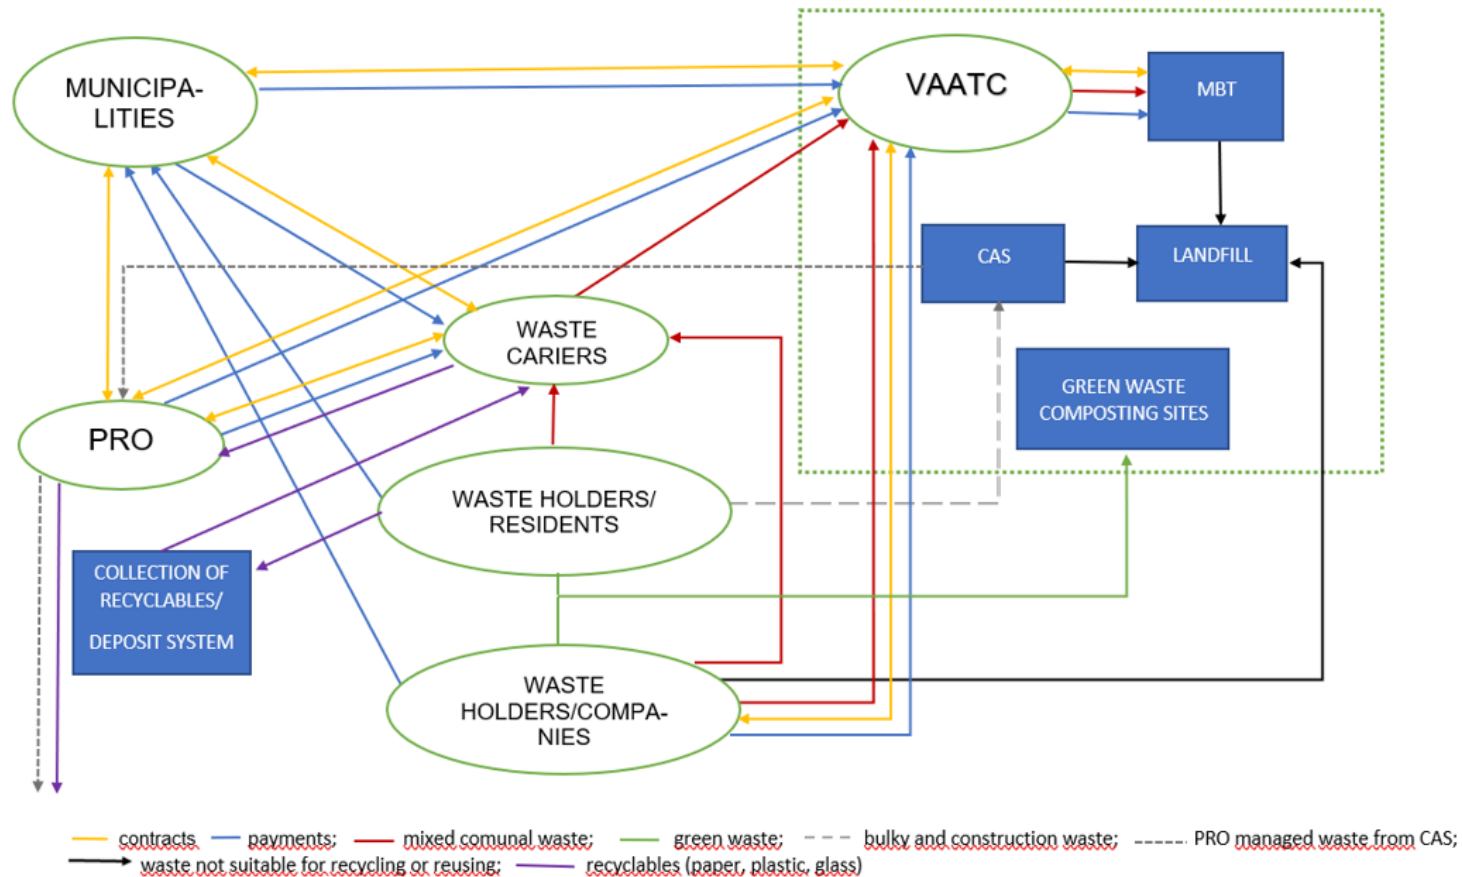

Collection of household waste

Malta

Marius Banaitis,  
JSC „VAATC“

# Vilnius region waste management system

# Collection of Paper and Packaging waste

- Containers for paper and packaging waste near households
- Collected paper and packaging waste in Vilnius is only 3% of mixed communal waste
- 755 new container sites for recyclables including packaging waste and paper are planned to be built in Vilnius

# Collection of Waste Electrical and Electronic Equipment (WEEE)

- Collection points in supermarkets (PRO)
- Collection of WEEE from households – WEEE taxi (PRO)
- Civic amenity sites (VAATC) for WEEE from households
- WEEE collected in Vilnius in 2017 – 2429 t

# Collection of Construction and Demolition Waste (CDW)

- Two scheduled household clean ups per year
- 17 civic amenity sites in Vilnius region (5 sites in Vilnius)
- Waste collection in civic amenity sites increases about 30% every year – from 4444 t in 2016 to 5975 t in 2017
- CDW is the largest waste stream in civic amenity sites (up to 70%)

## Keep it simple!

- Location of collection points
  - easy access
  - acceptable working hours
- Simple procedures
  - list of acceptable items
  - communication
- Clear regulation

# Thank you!
